SHIRT FOLD	

Comment	

MEN'S SHIRT FOLD
(for Casual Shirts)

Fold size = 9" x 13"

- 1.0 Scope: The specification defines the guideline for folding a garment in the listed category. All garments submitted for inspection and / or shipped must meet the folding and final size requirement as specified.
- 2.0 General: Pack with the components as per Labeling, Packaging and Hangtags page in the spec pack.

3.0 Instruction / Guideline:

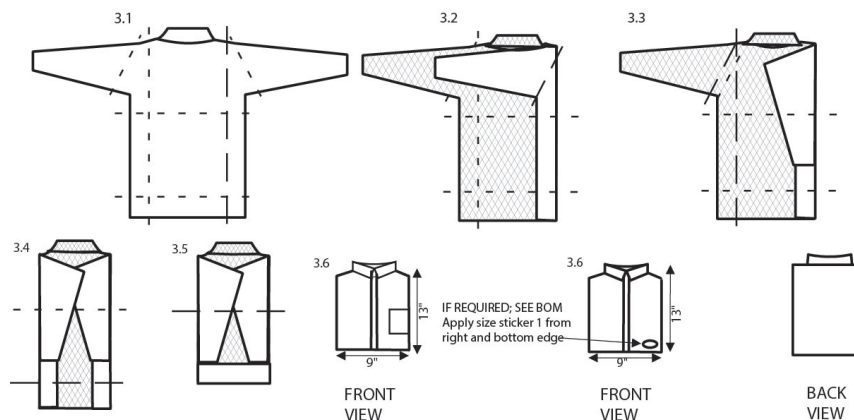

- 3.1 Garment is shown with fold lines. Position and center the folding board of appropriate size at the back of laid-down-flat-garment.
- 3.2 Fold garment from the right side over the fold line. Fold the sleeve back and down as shown so that it lines up with the previously folded edge.
- 3.3 Repeat the same steps for opposite side. Sleeves may overlap each other.
- 3.4 Fold the lower portion upward and tuck tail inside the fold.
- 3.5 Verify garment to be within tolerance specified. Place garment into specified Polybag and seal per approved method.

4.0 Finished Fold Size / Tolerance:

- 4.1 Finished fold size to be: 9" x 13" (22.86cm x 33.02cm)
- 4.2 Tolerance: +/- .25" (+.64cm)

5.0 Special Notes:

- 5.1 Garment should be buttoned and/or zipped if available before folding.
- 5.2 Do not use pins, tissue, stiffeners, clips, etc. without prior written approval from Packaging Engineering
- 5.3 Reference the Bill of Materials as necessary for additional hangtags and other requirements.
